# Summary of findings

## Overall summary

Mount Pleasant Nursing Home is a care home providing nursing and personal care to 39 people at the time of the inspection. The service can support up to 50 people.

We found the following examples of good practice:

All visitors to the service were appropriately monitored before they entered to ensure that the risk of Covid-19 was minimised. People were able to receive visitors safely.

The premises were clean and hygienic.

All staff had access to suitable personal protective equipment (known as PPE) such as disposable gloves, aprons and face masks, to ensure everyone's safety.

People who came to live at the home were admitted safely. Service users and staff were subject to regular Covid-19 testing.

Care plans outlined the risks people faced in respect of Covid-19 and actions to take to mitigate those risks.

Infection control policies were up to date and were routinely followed.

Service users continued to enjoy living in a homely and relaxed environment. People appeared relaxed and still able to pursue their personal routines safely.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Further information is in the detailed findings below.

## **Detailed findings**

## Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 15 April 2021 and was announced

## Is the service safe?

### Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
