# Summary of findings

## Overall summary

The Old Vicarage at Airmyn is a residential care home which provides accommodation and personal care for up to 22 older people, including people living with dementia. At the time of the inspection there were 18 people living at the home.

We found the following examples of good practice.

We saw an ongoing commitment to the welfare of the residents from staff members at the home. The team continued to review, implement and follow best practice guidance to keep people safe.

A documented regular testing regime was in place for visitors, staff and people living in the home. Visits to the home were managed by staff to keep people safe.

All areas of the home were subject to regular and enhanced cleaning regimes. The home was clean, uncluttered and odour free.

The home has several homely areas where people can sit and relax, this allows for comfortable social distancing which was also respected by staff.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Further information is in the detailed findings below.

**Inspected but not rated**

# The Old Vicarage at Airmyn

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 10 March 2021 and was announced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
