Summary of findings

Overall summary

Trinity Lodge is a residential care home providing personal care for up to 40 people aged 18 and over. At the time of the inspection 27 people were using the service.

We found the following examples of good practice.

- People were encouraged to maintain social distancing in the communal areas of the home.
- The provider policy for new admissions was in line with best practice and supported self-isolation for 14 days.
- Personal Protective Equipment (PPE) for staff and visitors were available to use. Staff were seen wearing the appropriate level of PPE.
- Regular tests for people and staff were completed and people were being supported to have their first vaccine.
- The provider was currently making changes to a meeting room to facilitate safe visiting. People were also supported to use video calls to maintain contact with their friends and relatives.
- The home was clean and regular cleaning checks were in place. The laundry room was organised and ensured clean and soiled laundry were not mixed.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Inspected but not rated

Trinity Lodge

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 2 March 2021 and was announced.

Is the service safe?

Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured the provider was preventing visitors from catching and spreading infections.
- We were assured the provider was meeting shielding and social distancing rules.
- We were assured the provider was admitting people safely to the service.
- We were assured t the provider was using PPE effectively and safely.
- We were assured t the provider was accessing testing for people using the service and staff.
- We were assured the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured the provider's infection prevention and control policy was up to date.
